

*Not to be  
Counsel*

JOURNAL

Office of Legislative Counsel

Monday - 24 November 1958

Talked with James Lay and Pat Coyne both of whom expressed regrets at not being able to make the [redacted] trip on 1 December. However, they are very interested in doing it at another time.

25X1

Mr. William H. Baier (Code M, ext. 64030) of the Department of the Navy called saying he was representing the Department of Defense in connection with proposed legislation dealing with free importation of Government employees' household goods and effects. The existing law on this subject, P. L. 126, will expire on 30 June 1958. Baier will appear as a witness and will presumably be asked what other departments are concerned and would like to be able to state that USIA, State Department and CIA are also concerned. He queried whether we would furnish him with the number of individuals involved and he was informed that this was classified. Therefore, he will simply say that a number of CIA personnel would be involved.
